Professional Summary

M.Tech graduate from NSUT with hands-on experience in Flutter, Dart, Java, and Spring Boot. Skilled in cross-platform mobile development, REST API integration, Firebase, and backend systems. Strong foundation in Data Structures, Algorithms, and OOP, with 400+ LeetCode problems solved. Passionate about building scalable applications and solving real-world problems.

Education

Degree	Year	Institute	CGPA/%
M.Tech IT	2024–2026	Netaji Subhas University of Technology (NSUT)	8.11
B.Tech CSE	2019–2023	Dr. Akhilesh Das Gupta Institute of Professional Studies (GGSIPU)	8.99
CBSE Class XII	2018	Little Flowers Public Sr. Sec. School	88.6%
CBSE Class X	2016	Little Flowers Public Sr. Sec. School	10.0

Experience

Deus Creation
Jun 2026 – Sep 2026

Flutter Developer Intern — *Remote*

- Developed **TaskMind OS**, a cross-platform team management application using **Flutter** and **Riverpod**, enabling task assignment, deadline tracking, client management, and progress updates.
- Implemented and maintained application features by integrating with the team's Laravel 12 backend, ensuring reliable functionality throughout the internship.

Rivigo (Mahindra Logistics Limited)
Aug 2025 – Nov 2025

Software Development Engineer Intern — *Gurugram, Haryana*

- Developed multiple **RESTful APIs** using **Java** and **Spring Boot** to generate client-specific historical reports based on multiple selection filters and blockers.
- Optimized slow **SQL queries** for historical report generation and refined the report generation rest API performance by collaborating with product and engineering managers to identify essential report attributes.
- Performed **Root Cause Analysis (RCA)** of **Spring Boot microservices** issues, collaborated with product and QA stakeholders across Agile sprints, and participated in code reviews and service documentation.

Projects

SongCatcher.io — kshitijsh-2604.github.io/songcatcher/

Tech Stack: Flutter, Firebase, Riverpod, Cloud Firestore, iTunes API

- Developing a cross-platform multiplayer music guessing game with real-time game rooms and synchronized gameplay.
- Integrated Firebase Authentication, Firestore, and the iTunes API to support leaderboards, daily challenges, and dynamic song retrieval.

Flutter Migrator — github.com/KshitijSh-2604/Flutter-Migrator

Tech Stack: Flutter, Provider, FastAPI, PostgreSQL, Supabase, OpenAI API/Gemini API

- Built an AI-assisted platform for migrating legacy Flutter projects to Dart 3.x using deterministic rules and LLM-based code transformations.
- Developed a FastAPI backend with PostgreSQL and Supabase to manage projects, authentication, and migration history.

Blood Buddy — github.com/KshitijSh-2604/BLOOD-BUDDY-FINAL-main

Tech Stack: Flutter, Firebase, Provider

- Built a Flutter application connecting blood donors with patients using Firebase Authentication and Cloud Firestore.
- Implemented real-time donor availability updates and an intuitive mobile interface for emergency blood requests.

Achievements & Certifications

- Completed Career Essentials in Software Development Cerification, by Microsoft and LinkedIn.
- Completed Flutter Essential Training Cerification, by LinkedIn Learning.
- Achieved a **Top-5 ranking** in **e-Yantra Online Hackathon**, demonstrating collaborative problem-solving & technical skills.

Leadership & Responsibilities

Teaching Assistant (GATE Scholarship)
Aug 2024 – Aug 2025

Netaji Subhas University of Technology — *Dwarka, Delhi*

- Conducted tutorials, laboratory sessions, and evaluation for undergraduate students.
- Mentored students in programming, Data Structures, Algorithms, and problem-solving techniques.

Co-Leader
Oct 2021 – Aug 2023

GitHub Hack Club, ADGIPS, GGSIPU — *Shastri Park, Delhi*

- Founded and managed the college GitHub Hack Club community.
- Organized Hacktoberfest events, coding workshops, technical talks, and quiz competitions.
- Collaborated with students to encourage open-source contributions and software development practices.

Student Hustler Lead
Sep 2019 – Dec 2020

Skillenza

- Organized webinars, technical sessions, and student engagement activities across multiple colleges.
- Developed leadership, communication, and event management skills while coordinating student communities.

Technical Skills

Languages: C++, Dart, Java, SQL

Frameworks: Spring Boot, Flutter

Backend: REST APIs, Microservices, Authentication, JSON, API Integration

Databases: MySQL, Firebase, Cloud Firestore, Supabase, PostgreSQL

Cloud & DevOps: Git, GitHub, Postman, Docker, Jenkins, Kibana

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming (OOP), DBMS

Tools: VS Code, Android Studio
